

In this quick tutorial we will show you how to access the digital commenting site.

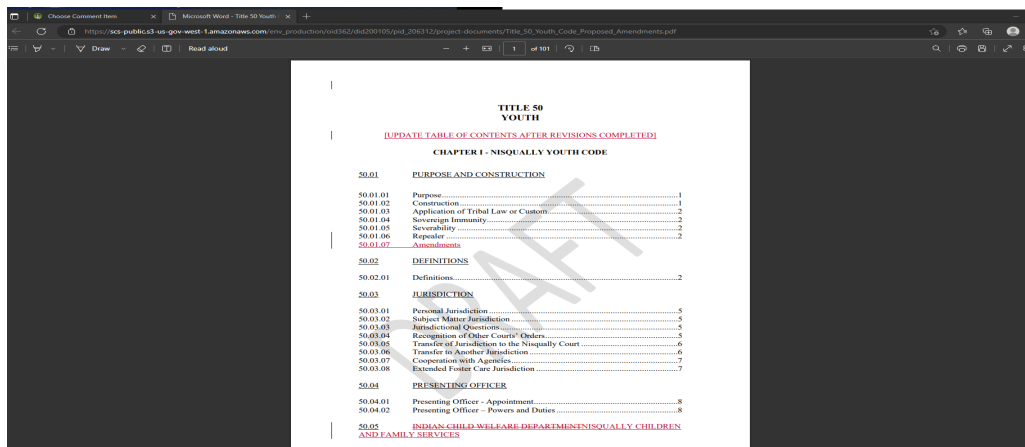

We will place the link on the Tribe main website, or you can manually type in the URL below.

<https://nit.commentinput.com>

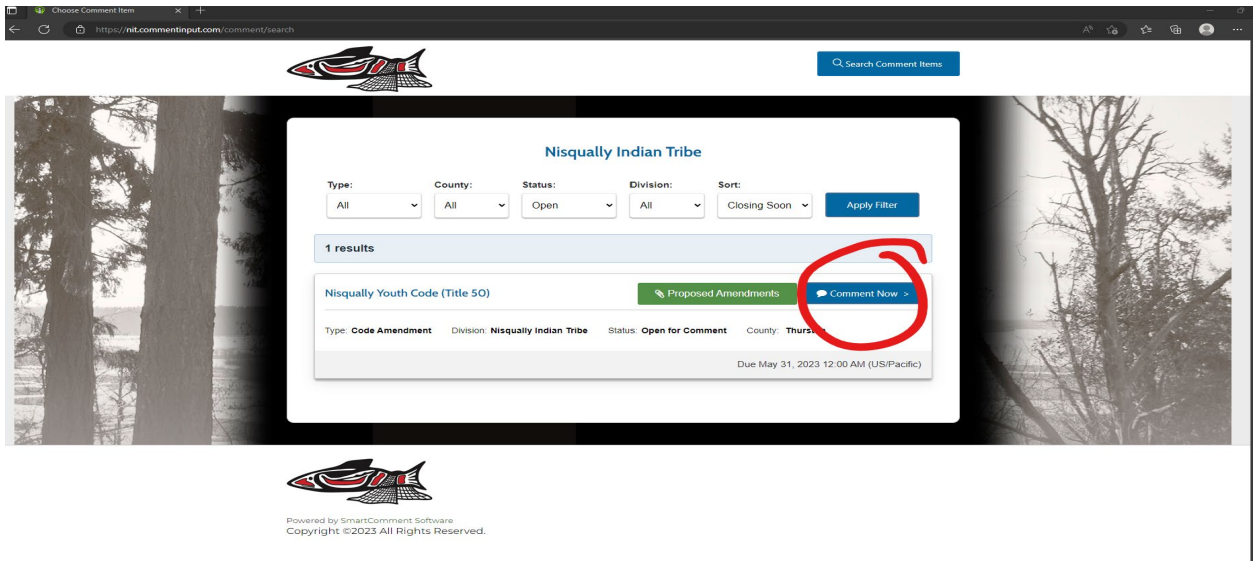

When you click on the link or type in the URL it will bring you to the start page. Here you will see a list of currently open comment periods and the code being amended:

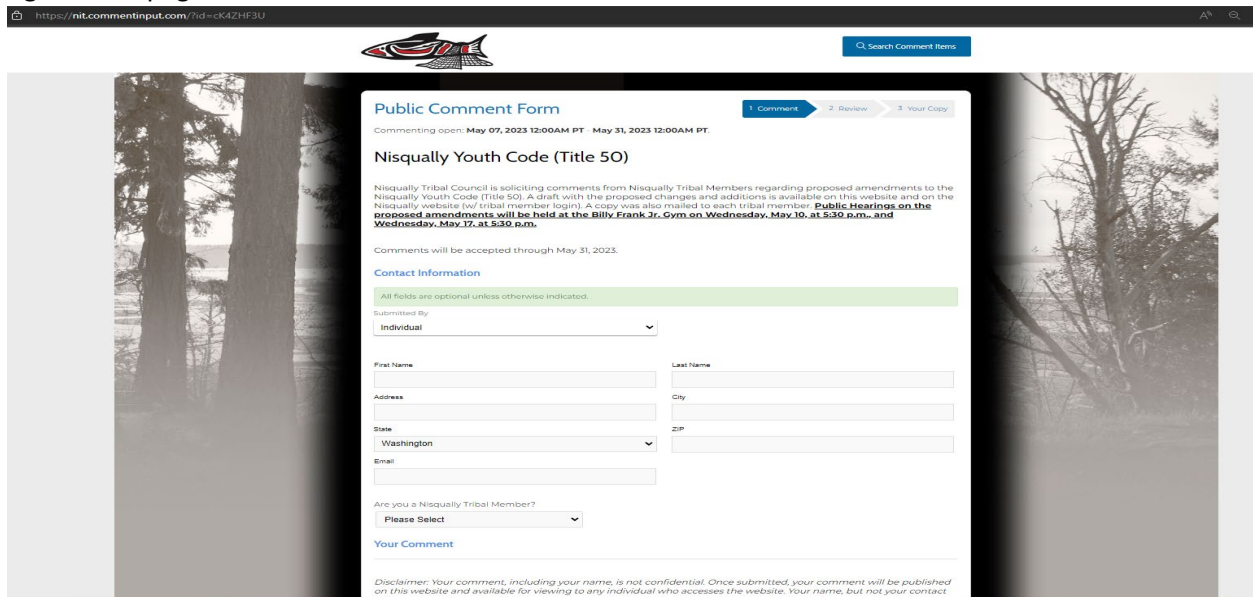

If you click on the Proposed amendments it will open up the code being proposed or amended:

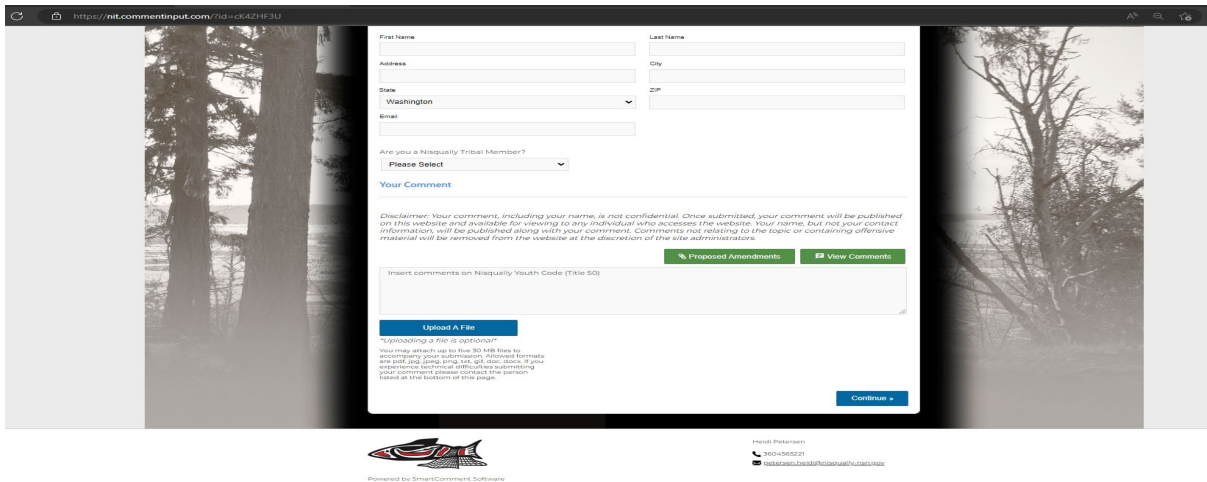

After reading the Code you can go back to the main page and click on comment now:

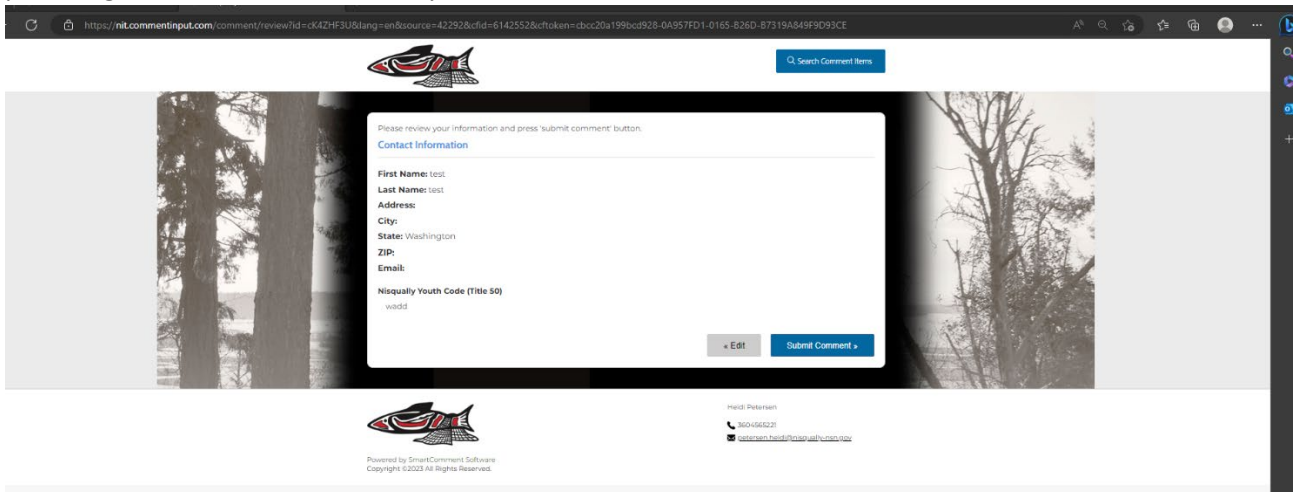

The page will open to a fillable form where you enter your information and provide comments. You can also upload a file instead of typing comments into the form area by clicking on the Upload a File button. After choosing which way you wish to provide your comment click the continue button at the bottom right of the page:

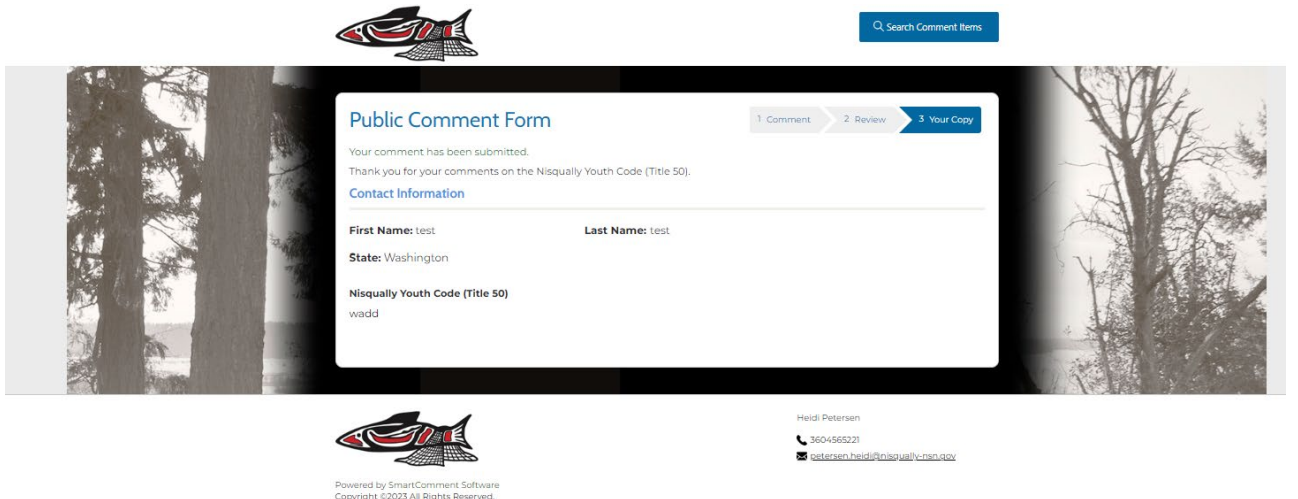

After clicking continue it brings you to a review page. Here you can double check what you are providing and either submit or edit your comment:

After submitting the site brings you to the 3rd step showing you your submission:

To view other people's comments, go back to the home page and click on comment now. This will bring you back to the comment page. From here scroll all the way to the bottom of the page and notice just above the comment box there is a button to View Comments. If you click on that you can see other people's comments:

Your Comment

Disclaimer: Your comment, including your name, is not confidential. Once submitted, your comment will be available on this website and available for viewing to any individual who accesses the website. Your name, but not your contact information, will be published along with your comment. Comments not relating to the topic or containing offensive material will be removed from the website at the discretion of the site administrators.

Insert comments on Nisqually Youth Code (Title 50)

"Uploading a file is optional!"

You may attach up to five 30 MB files to accompany your submission. Allowed formats are pdf, jpg, jpeg, png, tnt, gif, doc, docx. If you experience technical difficulties submitting your comment please contact the person listed at the bottom of this page.
